SWEET INDULGENCE

Signature caramel biscuit profiles

Iconic cookie and biscuit flavour profiles prove to be a major trend for a myriad of categories within the sweet and dairy segment. Providing a warm, characteristic brown and sweet taste profile, they create an adventurous, yet familiar sensory experience – offering opportunities for engaging with a wider consumer group and for expanding product categories.

Reflecting today's consumer expectations for authenticity and indulgence, Bell has designed characteristic biscuit flavours that are truly inspired by the unique taste of Belgian caramel-type biscuits and their versatile, sweet taste components.

Get in touch with taste and discover our delicious caramel-type biscuit flavours for creating authentic sweet and dairy products:

- High-impact cookie-type flavours reflecting the signature taste characteristics and complex notes of Belgian caramel biscuits.
- Intense and rich profile for developing indulgent, yet hybrid product concepts based on consistent quality and reliable taste properties.

- Flexible use in a broad range of sweet and dairy applications such as hard boiled candies, fillings, desserts, protein shakes, ice cream, yoghurt and milk shakes.
- Market and trend driven inspirations for extending your product portfolio and invigorating the marketplace.
